

Information about Background Checks

USA Curling uses the National Center for Safety Initiatives (NCSI) to conduct all background screens. NCSI also conducts all screens for the U.S. Olympic Committee. All clubs are encouraged to use the same screening company. The benefit to that is that the USCA and local clubs can share screening results with the permission of the individual. Thus, if John Smith does a curling club background screen through NCSI, then decides to work with USA Curling in a capacity that requires a background screen, he can opt to share that information through the NCSI system. This also works the other way around. Someone who has a USA Curling screen can opt to share with a curling club on the same system. It alleviates the cost of people having to do it twice.

USA Curling's group rate of \$20 per check is available to all member clubs. As some counties charge fees to access their information, additional charges may be applicable. They are simply pass-through fees to the county. A second check, which is included in the fee, is conducted at the 6-month mark as an additional precaution. Below you will find our contact at NCSI. Call Suzanne with questions, and let her know that you are a member of the USCA.
